PRI Asphalt Technologies Inc. is a fully accredited, independent testing laboratory located in Tampa, Florida. We specialize in providing complete technical support including: third-party testing, evaluation, research and development of pavement materials and performance.

Our staff consists of over 20 technicians, scientists and engineers trained in more than 600 Federal, State, ASTM, AASHTO and foreign test methods. They hold certifications through NICET, NETTCP, Asphalt Institute, and various state agencies.

Asphalt Pavement Services Offered

RAP & RAS Analysis

- RAP Evaluations
- Recovered Binder Evaluations
- Recovered Aggregate Evaluations
- RAS Characterizations
- HMA/RAP and RAS Mix Designs

Mix Designs

- SUPERPAVE™
- Marshall
- Warm Mix
- FAA
- Specialty (FDR, CIR, Slurry Seals and Micro-Surfacing)

Asphalt Binder Testing

- Conventional (Viscosity & Penetration-Graded)
- SUPERPAVE™ Evaluations (M 320, Tables 1, 2 and 3)
- PG Plus Testing
- Asphalt Rubber Binders
- Recycled Agents (RA Grades)

Mineral Aggregates

- Complete Consensus Properties
- Complete Source Properties
- Micro-Deval

Product Certifications

- For Federal, State and Agency Compliance

Pavement Preservation & Maintenance Programs

Release Agents

Pavement Services

- APWS (Asphalt Pavement Weathering System)
- AMPT Flow & E*
- Creep Compliance
- Dynamic and Static Creep
- EAR's
- Beam Fatigue
- Semi-Circular Bend (I-FIT & J_c)
- Hamburg & APA Rut Analysis
- Moisture Sensitivity
- Permeability
- Texas Overlay
- Resilient Modulus
- Bond Shear Strength
- Structural Number
- Tensile Properties (IDT)
- Thermal Cracking

Asphalt Binder, Cutbacks & Emulsions

- Certification, Analytical Analysis, and Product Development Services

Crack and Loop Sealants

Forensic Investigations and Litigation Support

LEED Product Certifications

Liquid Anti-Strips

Rejuvenators and Sealers

Referee Testing

Striping Paints
